China

Dear Mr. Wang,

Type Approval for BCS Wireless Charger – WPC003-1

Your application for type approval, via ITC, for the BCS Wireless Charger (model # WPC003-1) has been approved. It is noted that this product has been approved of by the Federal Communications Commission (FCC).

On the basis of the information supplied by your company, The Telecommunication Agency have no objection to the BCS Wireless Charger (model # WPC003-1) which includes the particulars listed below, being imported for usage in Guyana.

Name of Grantee	: BCS Automotive Interface Solutions (Suzhou) Co., Ltd.
Kind of equipment	: Wireless Charger
FCC Identifier	: 2AXPS-WPC003-1
Frequency Range (MHz)	: Output Power (Watts)
0.11 – 0.115	: -

Notwithstanding the above, this no objection is also subject to the conditions outlined below.

1. The equipment shall comply with national spectrum plans, national regulations and the radio regulations of the International Telecommunication Union and shall accept all interferences, including that which may cause undesirable operation, and shall not cause any harmful interference to licensed equipment/devices/systems etc. The equipment shall also comply with internationally/industry accepted RF exposure and SAR limits.
2. The labelling requirements for such equipment shall satisfy the requirements in the country of origin and include the following:
 - a. Country of manufacture/origin; b. Manufacturer's name; c. Model and serial number; d. Laboratory and test certification with reference to the regulation(s) to which it complies.
3. The Telecommunications Agency, the Government of Guyana and their agents shall be indemnified against any and all claims, which may be made as a result of the usage/operation and/or misuse of this equipment.
4. The authorization holder, BCS Automotive Interface Solutions (Suzhou) Co., Ltd. is required to notify the Telecommunications Agency in the event recertification is needed by the FCC. In such a case, this no objection will become invalid and a new one would be necessary.

Minister Responsible for Public Telecommunications
